

How Can a Transportation Expert Accelerate Digital Transformation?

On the road again. Sounds free and easy. Until we start talking about an average of 5,682 truck drivers (Q3 2017), in more than 4,150 trucks, covering over close to 360 million kilometers or 223 million miles of road (Q1–Q3 2017). Those statistics describe the complexity of the truck traffic managed by Hungarian firm Waberer's International Nyrt, Europe's market-leading road transportation company, as measured by its asset fleet size. To achieve efficiency, Waberer's had to master road safety, vehicular technologies, electrical engineering, IT, and mobile devices. But it wanted to save costs for clients as well and reduce the carbon footprint per vehicle.

Nothing less than a digital transformation would do, so it turned to the premium engagements portfolio from SAP® Digital Business Services. The SAP Value Assurance plan and safeguard service package for SAP S/4HANA® gave it total project support to achieve its digital transformation within a robust governance framework. Decision-making improved through real-time access to key data and reports. User interfaces and processes were simplified thanks to SAP S/4HANA. And Waberer's clients are now better served to deliver continent-wide sustainably.

Gaining Real-Time Insight for Better Decisions with **SAP S/4HANA® Finance**

Taming major transportation tangles is something Waberer's International does every day despite traffic schedules that thread thousands of vehicles and drivers along busy routes to as many destinations. As a 2017 gold winner in the innovation category of SAP Quality Awards for Central and Eastern Europe, Waberer's is no novice to IT finesse. It knows what world-class software can deliver. That's why it targeted SAP S/4HANA Finance to make its financials processes as straightforward as its daily roadwork.

Before: Challenges and Opportunities

- Replace legacy Oracle software with SAP S/4HANA Finance
- Accelerate decision-making with real-time business data insights
- Ensure peak solution performance for IT operations
- Drive value throughout the digital finance journeys

Why SAP

- SAP S/4HANA as the only IT platform to enable a digital transformation
- Quick and secure path to innovation with SAP Value Assurance service packages for SAP S/4HANA from SAP Digital Business Services

After: Value-Driven Results

- Safeguarded the project with the premium engagements portfolio of offerings
- Gained top-notch service support with a technical-quality manager for swift resolution of mission-critical issues
- Delivered a technical-integration check, continuous quality checks for implementation, and going-live support services for a smooth start of production and technically robust operations of SAP S/4HANA

“With the SAP Value Assurance plan and safeguard service package for SAP S/4HANA, we gained project support from kickoff to completion and **achieved our targeted results within a robust governance framework.”**
